INFRA NETWORK

Connecting People. Enabling Business. Delivering Smarter Communication

ICT • Communication • Technology

PROFESSIONAL
PUSH-TO-TALK
OVER CELLULAR

COMPANY PROFILE

Authorized TID RADIO PoC distribution in Indonesia.

01 • COMPANY OVERVIEW

Technology that works

Built for businesses, teams and field operations.

PT RACE INFRA NETWORK is an Information, Communication, and Technology (ICT) company focused on providing integrated technology products, solutions, services, and communication infrastructure for businesses and organizations across Indonesia.

OUR PRINCIPLE

Deliver reliable technology solutions that work in real operational environments.

OUR FOCUS

Enterprise communication and field operations where speed, reliability, mobility and operational coordination are critical.

STRATEGIC BUSINESS AREA

Professional Push-to-Talk over Cellular

Authorized TID RADIO PoC distribution in Indonesia.

02 • OUR BUSINESS

Our business

An integrated communication technology ecosystem.

ICT PRODUCTS & TECHNOLOGY

Integrated technology products and solutions for business operations.

PROFESSIONAL COMMUNICATION

Dedicated devices for demanding operational environments.

PoC SOLUTIONS

Instant one-to-one and one-to-many communication through cellular networks.

COMMUNICATION INFRASTRUCTURE

Infrastructure and connectivity supporting business communication.

ENTERPRISE COMMUNICATION

Structured communication for departments, locations and teams.

FIELD COMMUNICATION

Practical communication for mobile and distributed operations.

DEPLOYMENT & SUPPORT

Technology deployment, support, maintenance and assistance.

OPERATIONAL SERVICES

Communication services aligned with real-world workflows.

03 • THE COMMUNICATION CHALLENGE

When communication slows down, operations feel it.

CONSUMER SMARTPHONES

Powerful, but not specifically designed for demanding field communication. Fragile hardware • battery limits • multiple steps • difficult group coordination • limited dedicated emergency communication.

CONVENTIONAL RADIOS

Useful for many industries, but deployment can require RF planning, licensing, repeaters, terrain considerations and infrastructure investment.

THE RACE RESPONSE

Push. Connect. Deliver.

Professional Push-to-Talk simplicity + the reach of cellular connectivity.

04 • THE RACE POC SOLUTION

Professional PoC communication

Instant communication with the reach of cellular connectivity.

RACE provides a professional Push-to-Talk over Cellular (PoC) solution designed for organizations that require fast, reliable and scalable communication. PoC enables instant one-to-one and one-to-many communication through cellular networks.

THE RACE PTT EXPERIENCE

The operational simplicity of a professional radio combined with the geographical reach of cellular connectivity.

05 • CORE CAPABILITIES

Built for the field.

Features that support real operations.

4G

Broad cellular connectivity

OPERATIONAL CAPABILITY

PTT

Instant Push-to-Talk

OPERATIONAL CAPABILITY

GROUP

Talkgroups by team / site / shift

OPERATIONAL CAPABILITY

SOS

One-touch emergency alert

OPERATIONAL CAPABILITY

GPS

Location support on selected models

OPERATIONAL CAPABILITY

IP54

Dust & water splash protection

OPERATIONAL CAPABILITY

BATTERY

High-capacity options

OPERATIONAL CAPABILITY

SCALE

From teams to multi-site

OPERATIONAL CAPABILITY

06 • OUR SOLUTION ECOSYSTEM

One ecosystem. End to end.

More than hardware.

01 DEVICE

Professional PoC communication devices.

02 CONNECTIVITY

4G cellular connectivity.

03 PLATFORM

PoC platforms for group and individual communication.

04 MANAGEMENT

Talkgroups, users, zones and operational structures.

05 SAFETY

SOS and optional GPS functionality.

06 SERVICE

Deployment, support, maintenance and customer assistance.

07 • PRODUCT PORTFOLIO

TID RADIO PoC

Three models for different operational requirements.

G23

1.44" LCD • 4G • RTOS

- 2,000 mAh
- Group / Individual Call
- SOS
- Nano SIM
- Type-C

G24

1.77" LCD • 4G • RTOS

- 3,000 mAh
- Dual Nano SIM
- GPS option
- BLE 5.4
- SOS

G26

1.77" LCD • UHF + PoC

- 2W UHF + PoC
- VOX
- CTCSS / DCS
- Scrambler
- 2,000 mAh

Product specifications are based on the supplied RACE PTT product presentation.

08 • COMMUNICATION COMPARISON

RACE PoC vs. conventional communication

A practical comparison for operational communication.

Aspect	Smartphone	Conventional Radio	RACE PoC
Communication	Individual calling	Radio channel	Push-to-Talk
Group communication	Limited / app dependent	Channel based	Organized talkgroups
Coverage	Cellular dependent	Radio range / repeater	Cellular network
Repeater infrastructure	Not required	Often required	Not required for PoC
Emergency	Usually unavailable	Model dependent	Dedicated SOS
GPS	Smartphone dependent	Model dependent	Selected models
Design	Consumer oriented	Professional	Rugged field device
Operational use	General purpose	Radio communication	Professional team communication

09 • KEY BUSINESS VALUE

Communication that creates operational value.

01 FASTER COMMUNICATION

Push-to-Talk enables users to communicate immediately with a single action.

02 BETTER COORDINATION

Dedicated groups align communication with operational responsibilities.

03 WIDER REACH

Cellular connectivity supports broad geographical coverage.

04 EMERGENCY RESPONSE

One-touch SOS provides a dedicated emergency alert mechanism.

05 OPERATIONAL VISIBILITY

GPS-enabled models can provide location information.

06 LOWER COMPLEXITY

PoC deployment does not require conventional radio repeaters.

10 • INDUSTRY SOLUTIONS

Communication designed around operational realities.

PROPERTY MANAGEMENT

Engineering • Maintenance • Cleaning • Security • Front Desk • Facilities • Emergency Response

SECURITY

Patrol teams • Command centers • Gate security • Mobile teams • Incident coordination • SOS

EVENT MANAGEMENT

Security • Operations • Technical • Medical • Crowd management • Logistics • Command center

TRANSPORTATION & LOGISTICS

Fleet • Drivers • Dispatchers • Warehouse • Site coordination • Emergency response

PLANTATION & REMOTE OPERATIONS

Field teams • Supervisors • Security • Maintenance • Transportation • Site management

MANUFACTURING & INDUSTRIAL

Production • Maintenance • Engineering • Warehouse • Security • Safety • Facilities

HOSPITALITY & HOTELS

Property operations, guest-facing teams, security and facilities coordination.

CONSTRUCTION / MINING / ENERGY

Field-based operations requiring mobility, coordination and dependable communication.

11 • TARGET CUSTOMERS

Who we serve

Organizations where communication is operationally critical.

● **Property Management**

● **Security Companies**

● **Event Organizers**

● **Manufacturing**

● **Industrial Facilities**

● **Plantation**

● **Transportation**

● **Logistics**

● **Hospitality & Hotels**

● **Construction**

● **Facility Management**

● **Mining & Energy**

● **Commercial Developments**

● **Residential Developments**

● **Government & Institutions**

● **Other Field-Based Operations**

12 • OUR TECHNOLOGY APPROACH

Simple. Reliable. Scalable. Accessible.

A communication ecosystem, not simply a device.

1

TECHNOLOGY

Modern communication technologies for today's operational requirements.

2

RELIABILITY

Solutions designed for continuous field use.

3

INTEGRATION

Connect communication technology with existing workflows.

4

SCALABILITY

Support small teams through large multi-site operations.

5

SERVICE

Product support, deployment assistance and customer-oriented service.

13 • WHY RACE INFRA NETWORK

Why partner with RACE?

Local understanding. Professional focus. Practical deployment.

LOCAL MARKET UNDERSTANDING

Operating within the Indonesian ICT market with awareness of local business and field challenges.

PROFESSIONAL COMMUNICATION FOCUS

Focused on professional and operational communication rather than consumer communication.

TID RADIO DISTRIBUTION

Access to TID RADIO PoC products and solutions for the Indonesian market.

INDUSTRY-ORIENTED SOLUTIONS

Understand the customer's operational environment before recommending a solution.

SCALABLE DEPLOYMENT

Support requirements ranging from individual teams to multi-site organizations.

CUSTOMER SUPPORT

Product assistance, deployment support and ongoing communication solution services.

14 • MISSION, VISION & VALUES

What drives us

A clear direction for long-term technology partnerships.

MISSION

To provide reliable, innovative, and accessible ICT solutions that enable organizations to communicate faster, operate smarter, and respond better.

VISION

To become a trusted ICT and professional communication technology company in Indonesia, delivering innovative solutions that connect people, operations, and businesses.

● RELIABILITY

● INNOVATION

● CUSTOMER FOCUS

● INTEGRITY

● RESPONSIVENESS

● PARTNERSHIP

15 • BUSINESS DEVELOPMENT

Building the next layer of growth

Through partnerships, distribution and solution-based business.

RACE INFRA NETWORK continues to develop its ICT portfolio through strategic partnerships, technology distribution, and solution-based business development. The PoC communication business represents one of the company's strategic areas, with an opportunity to expand professional communication technology across Indonesia's growing business and industrial sectors.

Enterprise Customers

Government & Institutional Customers

System Integrators

ICT Partners

Technology Providers

Dealers & Resellers

Distribution Partners

Strategic Investors

16 • OUR COMMITMENT

Connect. Coordinate. Respond. Monitor. Scale.

Communication is not simply about connecting devices. People. Teams. Operations. Locations. Decisions.

1

CONNECT

Professional Push-to-Talk powered by cellular connectivity.

2

COORDINATE

Structured communication between departments, locations and shifts.

3

RESPOND

Faster response through instant communication and SOS.

4

MONITOR

Operational visibility through GPS-enabled devices.

5

SCALE

Expand communication capabilities as operations grow.

17 • CONCLUSION

Push. Connect. Deliver.

Practical technology for modern business and field operations.

PT RACE INFRA NETWORK is an Indonesian ICT company committed to delivering practical technology solutions for modern business and field operations. Through its professional communication business and distribution of TID RADIO PoC solutions, RACE provides organizations with an alternative to conventional communication methods by combining the simplicity of Push-to-Talk with the reach of cellular connectivity.

Connecting People. Enabling Business.

Delivering Smarter Communication.

Let's connect.
